Examiner's Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: The prior arts of record, Christy et al (5786578) and St Phillips (4933525) fail to teach the claimed invention that includes a base element with a circumferential wall with a temperature indicator, and a central region (or receipt region), as defined by the specification, that is within the base element and as shown overcomes the prior art references. In particular, Christy teaches the base element and the receipt region is the same structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
